# Providence Federal Credit Union Announces Expansion of Over 55,000 Surcharge-free ATMs

**Milwaukie, OR, March 6, 2015:** Providence Federal Credit Union has become an Allpoint Network financial institution, which means Providence Federal Credit Union members now have access to America's largest surcharge-free ATM network. This translates to over 55,000 surcharge-free ATMs worldwide.

Providence Federal Credit Union members will never be far away from a surcharge-free ATM access to their cash, especially in the United States where Allpoint offers 43,000 cash machines in places they're already visiting as part of their daily routine. Conveniently located in retail outlets including major discounters, convenience, grocery and pharmacy stores, Allpoint Network ATMs can save their members' time as well as ATM fees.

"By partnering with the Allpoint Network, we immediately grew our surcharge-free ATM footprint to more than double that of even America's largest bank," said Shirley Cate, Providence Federal Credit Union President/CEO. "From our survey we conducted last spring, our members wanted a financial institution that would deliver the most convenient account access and management options, and that included cash access. With Allpoint Network surcharge-free ATMs, we can now meet their checking account needs even more with access to cash in a way that works best for them — in the conveniently located stores that are already part of their lives."
